

Final System Testing Test Cases

Result: Passed / Failed / Needs Fix Remarks: _____

Project Integrated LRN-Based Student Progression Tracking System

Purpose This document lists the final test cases to verify the main functions, security controls, upload validation, records management, cohort tracking, reports, dashboard, and user management features.

Tester _____

Date Tested _____

Legend Result may be marked as Passed, Failed, or Needs Fix.

1. Authentication and Session Testing

Result: Passed / Failed / Needs Fix Remarks: _____

- | | |
|--------------------|--|
| TC-AUTH-001 | Login using valid admin credentials. Expected: user is redirected to dashboard. |
| TC-AUTH-002 | Login using wrong password. Expected: system shows invalid username or password. |
| TC-AUTH-003 | Login using inactive account. Expected: account cannot access the system. |
| TC-AUTH-004 | Logout from the system. Expected: session is cleared and user returns to login page. |
| TC-AUTH-005 | Open protected page without logging in. Expected: redirected to login page. |
| TC-AUTH-006 | Stay inactive for more than 20 minutes. Expected: user must login again. |
| TC-AUTH-007 | Restart Docker/app and refresh page. Expected: user must login again. |
| TC-AUTH-008 | Change password with correct current password. Expected: password is updated. |
| TC-AUTH-009 | Change password using wrong current password. Expected: change is rejected. |

2. User Management Testing

Result: Passed / Failed / Needs Fix Remarks: _____

- | | |
|--------------------|---|
| TC-USER-001 | Admin opens Users page. Expected: user list is displayed. |
| TC-USER-002 | Admin adds a Viewer account with valid password. Expected: user is created. |
| TC-USER-003 | Admin adds a user with duplicate username. Expected: system rejects duplicate. |
| TC-USER-004 | Admin adds password shorter than 8 characters. Expected: system rejects password. |
| TC-USER-005 | Admin edits user role from Viewer to Admin. Expected: role is updated. |
| TC-USER-006 | Admin marks a user inactive. Expected: inactive user cannot login. |
| TC-USER-007 | Admin resets user password. Expected: user can login using new password. |
| TC-USER-008 | Admin deletes another user. Expected: deleted user can no longer login. |
| TC-USER-009 | Admin attempts to delete own account. Expected: delete action is not allowed. |
| TC-USER-010 | Try to remove the last active admin. Expected: system prevents action. |

3. LIS/SF1 Upload Testing

Result: Passed / Failed / Needs Fix Remarks: _____

TC-UPL-001	Upload valid .xlsx LIS/SF1 file. Expected: records are imported successfully.
TC-UPL-002	Upload valid .csv LIS/SF1 file. Expected: records are imported successfully.
TC-UPL-003	Upload unsupported file type such as .pdf. Expected: system rejects file.
TC-UPL-004	Upload file larger than 50 MB. Expected: system shows file too large message.
TC-UPL-005	Upload file missing LRN column. Expected: column detection error appears.
TC-UPL-006	Upload file missing Name column. Expected: column detection error appears.
TC-UPL-007	Upload file missing Sex column. Expected: column detection error appears.
TC-UPL-008	Upload file with invalid LRN values. Expected: invalid rows are skipped or no valid rows message appears.
TC-UPL-009	Use invalid school year format 2025/2026. Expected: upload is rejected.
TC-UPL-010	Use illogical school year 2025-2027 or 2027-2025. Expected: upload is rejected.

4. Upload Metadata and Confirmation Testing

Result: Passed / Failed / Needs Fix Remarks: _____

- TC-META-001** Upload file where file school year matches selected school year. Expected: import proceeds normally.
- TC-META-002** Upload file where file school year differs from selected school year. Expected: warning appears.
- TC-META-003** Upload file where file grade level differs from selected grade. Expected: warning appears.
- TC-META-004** Proceed after mismatch warning. Expected: selected form school year/grade is recorded.
- TC-META-005** Cancel after mismatch warning. Expected: import is cancelled.
- TC-META-006** Let pending upload expire before confirming. Expected: system asks to upload again.

5. Student Records and History Testing

Result: Passed / Failed / Needs Fix Remarks: _____

TC-STU-001	Search student by LRN. Expected: matching student record appears.
TC-STU-002	Search student by name. Expected: matching student record appears.
TC-STU-003	Filter records by grade level. Expected: only selected grade appears.
TC-STU-004	Filter records by school year. Expected: only selected school year appears.
TC-STU-005	Admin adds a new student manually. Expected: student is saved.
TC-STU-006	Admin adds year record to existing student. Expected: history is updated.
TC-STU-007	Admin edits record status/remarks. Expected: update is saved and logged.
TC-STU-008	Viewer opens student history. Expected: viewer can view but cannot edit/delete.
TC-STU-009	Admin deletes a student after confirmation. Expected: student and related records are removed.
TC-STU-010	Check change log after edits. Expected: changed field, old value, new value, and user are shown.

6. Cohort Tracking and Reports Testing

Result: Passed / Failed / Needs Fix Remarks: _____

TC-COH-001	Track Grade 7 cohort for selected school year. Expected: system shows expected Grade 7 to Grade 10 path.
TC-COH-002	Track Grade 8 entry cohort. Expected: system supports later-entry/transferee tracking.
TC-COH-003	Student progresses yearly without missing records. Expected: marked Regular.
TC-COH-004	Student has repeated grade level. Expected: marked for review/irregular.
TC-COH-005	Student has missing year record. Expected: marked missing or for review.
TC-COH-006	Student has missing records but reached Grade 10. Expected: Completed - Delayed.
TC-COH-007	Student has Transfer-Out status. Expected: transfer status is reflected.
TC-COH-008	Student has Transfer-In/Pending Transfer-In status. Expected: status is reflected.
TC-COH-009	Print progression summary report. Expected: printable report opens with selected cohort.
TC-COH-010	Export progression report to Excel. Expected: Excel file downloads with correct data.

7. Dashboard and UI Testing

Result: Passed / Failed / Needs Fix Remarks: _____

- TC-DASH-001** Open dashboard after login. Expected: dashboard loads without errors.
- TC-DASH-002** Check summary cards. Expected: total students, transfer-in, transfer-out, and repeaters display.
- TC-DASH-003** Check uploaded records by grade level. Expected: counts match uploaded records.
- TC-DASH-004** Check latest activities. Expected: recent edits/uploads appear.
- TC-DASH-005** Click Quick Action: Upload LIS Data as admin. Expected: upload page opens.
- TC-DASH-006** Click Quick Action: Track Cohort. Expected: cohort page opens.
- TC-DASH-007** Check viewer dashboard. Expected: admin-only upload action is hidden.
- TC-DASH-008** Check modal text color and placeholders. Expected: readable and consistent with system branding.

8. Final Acceptance Checklist

Result: Passed / Failed / Needs Fix Remarks: _____

AC-001	All core pages load without Internal Server Error.
AC-002	Admin and Viewer roles behave correctly.
AC-003	Invalid uploads are blocked with clear messages.
AC-004	Valid uploads create correct student records.
AC-005	Cohort tracking results match expected learner progression.
AC-006	Reports can be printed and exported.
AC-007	Deleted or inactive users cannot login.
AC-008	System logs out after inactivity and after app restart.
AC-009	Dashboard counts and latest activities are understandable.
AC-010	System is ready for project demonstration after all failed items are fixed.
